**TRUE TO
THE GAME**

Since 1876, the Spalding® brand has assured athletes around the globe that they are using the best sports equipment. Spalding® is driven to help all athletes achieve their best, regardless of the level of competition.

The relationship between the Spalding® brand and the NBA spans more than three decades and continues to expand the popularity of basketball globally. In addition to its association with the NBA, the Spalding® brand is featured in partnerships with over 55 leagues and federations worldwide. Fans of the sport everywhere can count on the Spalding® brand for cutting-edge technology, to keep the game evolving.

Spalding® brand is the world's preeminent basketball equipment provider. It is chosen by those with true dedication to and passion for the sport. Such athletes have the raw, unwavering, uncompromising inner confidence needed to defy all odds and push beyond all obstacles. The Spalding® brand celebrates these athletes by creating quality, innovative products that ignite their inner confidence and enable them to play their best game.

BALLS

TECHNOLOGY

MOLDED BASKETBALL CONSTRUCTION

A type of basketball where the entire outer surface is produced together with the molding of the carcass. This technique is used with our outdoor basketballs.

CARCASS and COVER Provides structure for the inner components. With high-end rubber balls, a coat of paint is applied to enhance a better grip and look.

LAMINATED BASKETBALL CONSTRUCTION

A type of basketball where panels of leather, composite leather or synthetics are fixed onto a rubber carcass by hand. This technique is used for our indoor and indoor/outdoor basketballs.

COVER provides good grip, feel and aesthetic appeal to the ball as well as necessary strength and abrasion resistance.

CARCASS provides structure for the inner components.

LEGACY

ZK Material: This exclusive material with advanced moisture management control is engineered for high caliber indoor play. The soft carcass and deep channel design gives this ball a softer feel and improved grip.

The **COVER** material provides superior grip and soft feel while maintaining Spalding's rigorous standards for material strength and abrasion resistance.

The **CARCASS** provides structure, shape and protection for the inner components.

WINDINGS

Nylon windings add structural integrity and durability to the ball.

BLADDER

High-end butyl bladder that maintains air pressure.

NEVERFLAT

The Spalding Neverflat basketball holds air longer than traditional basketballs resulting in consistent rebound height.

- Exclusive patented NitroFlate® Technology
- Special valve prevents air seepage
- Excellent grip and ball control

3ON3

Size 6 ball, but weight of a size 7 ball

COLOR INFUSED

Colored rubber with a unique color mixing technique that makes each ball different from the next.

SOFT GRIP TECHNOLOGY

The two layer sponge rubber design gives a soft grip, perfect game characteristics and a very long durability in category of outdoor balls.

ROOKIE GEAR TECHNOLOGY

Spalding Rookie Gear provides a lighter ball, for a better experience. Spalding Rookie Gear is designed to weigh less than standard youth balls for kids under 8 years. A lighter ball creates a better experience for kids, allowing them to practice proper fundamentals more easily and build the confidence they need with a ball that is appropriate in size and weight. Watch as your young athlete learns faster and performs better than ever before.

Weighs 15% lighter than traditional balls
